Reviewer #2: The study introduces algorithms and software that aims to generate accurate reduced compartmental models of neurons. The approach appears elegant and is well validated by exemplar applications. I think it will be of interest to many neuroscientists. For the network modeler, the software provides a practical solution to the tradeoff ...

The history of life on Earth traces the processes by which living and fossil organisms evolved, from the earliest emergence of life to the present. Earth formed about 4.5 billion years ago (abbreviated as Ga, for gigaannum) and evidence suggests that life emerged prior to 3.7 Ga. (Although there is some evidence of life as early as 4.1 to 4.28 Ga, it remains controversial due to the possible ...
