The single-bullet theory, also called magic-bullet theory by its critics, was introduced by the Warren Commission in its investigation of the assassination of U.S. President John F. Kennedy to explain what happened to the bullet that struck Kennedy in the back and exited through his throat. Given the lack of damage to the presidential limousine consistent with it having been struck by a high ...

One day, the internet says we should focus on our mental health and wellbeing. The next, the focus needs to be on the latest dieting fad (stay away from them). What we need is the metaphorical glue that holds everything together. Something that keeps the chaos at a controlled level. That glue is the monthly spread of a bullet journal. @stilclassics
