Many of them made points about the importance of frequent, complete, and accurate communication among the XP development team. Due to the quickly evolving nature of XP projects, it was important to have emails responded to quickly and have everyone attend their required meetings in order to make appropriate decisions and keep everyone updated with accurate information about the project.

A simple way to think about this is that squash merge gives you just the file changes, and a regular merge gives you the file changes and the commit history. Note: Squash merging keeps your default branch histories clean and easy to follow without demanding any workflow changes on your team. Contributors to the topic branch work how they want in the topic branch, and the default branches
